Prof. Weiss Ervin I. D.M.D Specialist in Prosthodontist

Prof. Ervin I. Weiss is dean of the dental school at Tel Aviv University. In his past position he was the head of the Department of Prosthodontics at the Hebrew University-Hadassah Faculty of Dental Medicine. He is a full professor of Prosthodontics since 2007. Prof. Weiss graduated from the Dental School in Jerusalem in 1975. Between 1976 and 1981 he served as a dentist in the Israeli Defence Force (IDF). Upon returning to Israel, he rose in the ranks of the Tel Aviv School of Dental Medicine, becoming an Associate Professor in Restorative Dentistry in 1998. He served as Chairman of the Israel Society of Oral Rehabilitation in 1995-1996 and he was the Chairman of the Israeli division of the International Association for Dental Research in 1999. He has published over 100 articles in peer reviewed journals and chapters in books and he filed numerous patents in the fields of microbiology and dentistry. In addition Prof. Weiss has published his clinical and research studies in over 100 meetings (published as abstracts) and invited lectures.

Dr. Schneider Gadi, D.M.D & Specialist in Periodontics

Dr. Schneider received his D.M.D. certificate at the Jerusalem Hebrew University, Hadassah Dental School in 2000. Post-graduate studies in Periodontology at Jerusalem Hebrew University, Hadassah Dental School. Specialist in Periodontology since 2004. Dr. Schneider received his European Federation Certificate of Periodontology in 2004 and worked as an instructor and lecturer in Jerusalem Hebrew University, Hadassah Dental School. As the Research & Education consultant and lecturer at Alpha-Bio Tec’s Educational Center, Dr. Schneider leads seminars and courses in Implantology and implant surgery to his colleagues in the field. Dr. Schneider holds a private practice which specializes in Periodontics and Implantology.

Prof. Garfunkel Adi A., DMD, is specialist in Oral Medicine

Prof. Garfunkel is Professor in Oral Medicine at the Hebrew University, Jerusalem and holds numerous Visiting Associate Professor titles in the U.S.A. and Romania. He received Doctor Honoris Causa title at the Nippon University in Japan and Carol Davila University in Romania. Prof. Garfunkel is an honorary member of the American Dental Association, International Association of Dental Research, Burma Dental Association, Academy of International Dental Studies and Israeli Dental Association. Served as Dean of the Faculty of Dental Medicine, Hadassah Hebrew University, Director of the D. Walter Cohen Middle East Center for Dental Education and Chairman of the Oral Medicine Department at the Hadassah Hospital. Prof. Garfunkel is a member of numerous Editorial Boards including The Compendium of Continuing Education in Dentistry, USA, Editor-in-Chief of the Middle East Journal of Oral Health and the Romanian Journal of Dental Update “Actualitati Stomatologice”. He is the former editor of the Israel Journal of Dental Sciences. He published over 100 original papers in peer-reviewed journals and book-chapters on the connection between the oral and the systemic health, the most recent one (2010) in “Dental Implants – the Art and Science (Dental Implant Therapy for Medically Complex Patients)”. Prof. Garfunkel lectured widely both nationally and internationally. He masters in the Hebrew, English, French and Romanian languages.

Prof. Dr. Esposito Marco, DDS PHD (ENGLAND / ITALY)

Prof. Dr. Esposito is Senior Lecturer in Oral and Maxillofacial Surgery, Editor of the Cochrane Oral Health Group, Director of the Postgraduate Dental Specialities courses in Dental Implantology (Certificate, Diploma and Master), School of Dentistry, University of Manchester, UK, Associate Professor in Biomaterials with the Sahlgrenska Academy at Göteborg University, Sweden, and Editor in Chief of the European Journal of Oral Implantology. Marco graduated with honors in dentistry at the University of Pavia, Italy, in 1990 and was awarded a PhD in Biomaterials from the Göteborg University in 1999. He worked as Guest Researcher at NIOM (Scandinavian Institute of Dental Materials), Haslum, Norway and is a specialist in Periodontics (UK). He authored more than 80 scientific publications in international peer-reviewed journals. His main research interests are the assessment of the effectiveness of various therapeutic interventions with particular emphasis on dental implants.
Budapest is one of the most memorable cities in Central Europe, and is the most visited tourist destination in Hungary. Often described as the “Little Paris of Middle Europe”, a city with a multi-cultural past rich with Roman, Renaissance, Turkish, German and Austrian impressions, and Hungarian culture’s rare ability to fuse these interactions into its own unique identity. Budapest has a lot to offer, museums and galleries, churches and synagogues, palaces and historic buildings, baths and pools.
The Radisson Blu Béke Hotel features an elegant traditional exterior, located in the center of Budapest, offering easy access to transport, businesses, shopping and attractions like the Opera House and National Museum.

The brightly colored rooms and suites offer comfortable beds, individual climate control, mini bars and free wireless Internet. Olive's Restaurant showcases traditional Hungarian dishes with Mediterranean influences, while Zsolnay Café serves coffee, tea, cocktails and an array of desserts on the namesake Zsolnay porcelain. The hotel also offers an indoor pool and convenient car washing and laundry services.
